Pratham Mukund Sonje

Full-Stack Web Developer

Pune, India | +91 9373516016 | sonjeprathamsp1802@gmail.com | linkedin.com/in/pratham-sonje

Professional Summary

Web developer with 3 years of experience building Angular and Ionic applications, focused on REST APIs integration, reusable component architecture, and performance. Experienced with NgRx state management, PostgreSQL/MongoDB, and CI/CD-driven deployment. Comfortable owning features end-to-end in fast-paced delivery environments.

Experience

Junior Software Developer — Application Nexus Webservices Pvt. Ltd. *June 2024 – Present*

- Built and maintained Angular applications integrating REST APIs via HttpClient and RxJS Observables, including authentication flows, HTTP interceptors, and centralized error handling.
- Designed reusable Angular components and Reactive Forms within a modular service-based architecture, reducing duplicate code across feature modules.
- Improved frontend rendering performance and optimized database queries to reduce load times and improve system reliability in production.
- Partnered with cross-functional teams (design, backend, QA) to ship features on schedule and provide ongoing support for deployed systems.

Software Developer Intern — Application Nexus Webservices Pvt. Ltd. *January 2024 – May 2024*

- Contributed to cross-platform Ionic mobile applications supporting Android and web with a responsive, mobile-first UI.
- Integrated REST API services to retrieve and render application data efficiently within the mobile interface.
- Implemented JWT-based authentication for secure login and persistent user sessions.
- Built geolocation-based features enabling users to locate nearby hospitals and healthcare services.

Projects

FMP (Flag-Maker Print) — Application Nexus Webservices Pvt. Ltd.

HTML5, CSS3, JavaScript, jQuery, Fabric.js, Fastify, REST APIs, GraphQL, Shopify, Google Analytics

- Enabled import of complex SVG graphics into Fabric.js canvas using third-party APIs for accurate vector editing.
- Built an AI-driven feature allowing users to generate PNG images from prompts and convert them into SVG graphics.
- Developed responsive browser-based canvas operations optimized with jQuery for improved rendering performance.
- Migrated core REST endpoints to GraphQL, reducing redundant data fetching and simplifying client-side query logic.
- Implemented Google Analytics tracking to monitor user behavior and product engagement.

Child Vaccination App — Application Nexus Webservices Pvt. Ltd.

Ionic, Angular, CodeIgniter-4, PHP, MySQL, TypeScript

- Built core UI modules including login, dashboard, and vaccine information screens.
- Applied JWT authentication for secure login and persistent sessions.
- Connected backend APIs to dynamically load vaccination data into the mobile interface.
- Created a location-aware functionality utilizing Capacitor geolocation to pinpoint nearby healthcare facilities, which led to a 30% increase in user satisfaction.

Technical Skills

Frontend: Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, RxJS, NgRx, Ionic, Angular Reactive Forms, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, REST APIs, GraphQL, PHP

Database: MySQL, MongoDB, PostgreSQL

Tools: Git, GitHub, GitLab, Postman, VS Code, CI/CD

Education

Abasaheb Garware College, Pune 2022 – 2024
Master of Computer Applications (MCA) *78.85%*

KTHM College, Nashik 2019 – 2022
Bachelor of Computer Science (BCS) *79.64%*
